

MS53BA2

Marque: Dino-Lite

Code produit: MS53BA2

Courte description

Flexible arm stand with table base

Description

Heavy duty table base for the MS53B. The MS53BA2 is a combination of the rigid MS53B articulating flex-arm and a desktop base rack that holds the MS53B on top of a table.

The desktop base rack is designed for situations where the standard clamp cannot be used to secure the MS53B on a stable surface. The flex-arm is moved and adjusted with tightening knobs and clamps for positioning the arm to the area you wish to examine. Two of the flex-arm axis can be rotated 360 degrees and extended for further reach. The MS53BA2 flex-arm is manufactured from durable, lightweight recycled aluminum and has the ability to be folded flat, which makes the MS53BA2 stand portable and ready for travel.

Spécification

Compatibility	
Compatible with:	All Dino-Lite models
Housing	
Dimensions	35.5cm (W) x 16.5cm (L) x 5cm (H)
Weight	4 kg
Features
