# TrichoScope Polarizer HR (MEDL7HM)

**Code produit:** MEDL7HM

#### **Courte description**

5 Megapixel resolution Up to 200x magnification HR model for Trichoscopy Polarizer Medical Device Class 1

#### **Description**

The Dino-Lite TrichoScope Polarizer HR (MEDL7HM) is a great instrument for the examination of the human scalp and for hair analysis, e.g. for hair loss research. With the high magnification of up to 200 times a single hair can be viewed with great detail. The built-in polarizer filter minimizes the glaring effect of the scalp/ hair.

The 5 Megapixel sensor makes it possible to display microscopic images, without loss of quality, on large screens or when large images should be printed.
